

Seeing stray cats? We can help.

Community cats are free-roaming, stray or feral cats who live outdoors in our neighborhoods. Community cat programs humanely and effectively reduce the number of cats living on our streets.

OUR COMMUNITY CAT PROGRAM PROVIDES:

- Humane trapping of stray and feral cats, is followed by spaying or neutering, vaccination and return of the cats to their home area. Over time, their numbers are reduced.
- Ear-tipping of spayed or neutered cats, a painless procedure that is the universal symbol of a spayed or neutered outdoor cat

BENEFITS OF SPAY/NEUTER:

- Prevents unwanted litters
- Saves taxpayer money by keeping cats out of municipal shelters
- Decreases the number of cats dying in shelters
- Improves the health of outdoor cats
- Minimizes nuisance behaviors like spraying, fighting, howling and roaming

HOW YOU CAN HELP:

- Please tell us about stray cats with no ear-tip who need spaying or neutering.
- Call us to volunteer or to learn how you can feed and care for outdoor cats.

*Some restrictions may apply.
